This office is under obligations to the Mexican orchestra for a delightful serenade last evening. Thanks; hit us again.

A large crowd attended the skating rink last evening, many going to hear the Mexican band. We learn that the managers are making arrangements to have music every evening that the rink is open.

The Mexican orchestra will play at the skating rink to-morrow night if nothing occurs in the meantime. It made a very favorable impression last night on those who had never heard them before.

Protection hose company will this evening give their newly-elected chief a send-off, the high jinks to commence at half past eight o'clock. The entire fire department city and county officials and the press are invited to be present.

Sheriff Slaughter last evening received a dispatch from Justice Easton from Fort Huachuca, stating that he and District Attorney Stilwell would not return to Tombstone until to-day. The name of the dead Mexican is Eduardo Moreno, alias Sarco. No further particulars.

## Postponed.

As the time for the public meeting to-morrow night is too short to admit of a full county representation, and as several prominent mining men are absent, it is deemed best to postpone the meeting until Friday, October 25th, at the same place and hour.

We do not recall for many years any public act of an American cabinet officer, which has been more strongly condemned in the United States than Mr. Windom's ruling on the importation of silver-lead ores. It was a tremendous blunder and probably no one else more keenly realizes it than the honorable Secretary himself. On this point we find influential journals in the United States quite agreed. The New York Times remarks: "It is curious that at a time when leaders of the party now in power profess to desire above all things an enlargement of our export trade with the countries south of us, and are devising schemes by which such trade may be encouraged and increased, the Government with which they are in sympathy, and through which they hope to gain their ends, should persistently be repelling our nearest neighbors on the south, making trade intercourse with them more difficult, and causing them to invite from Europe the aid and the supplies that ought to be furnished by the United States." And we find the Boston Herald saying: "Now, the Mexicans are a sensitive as well as a sensible people, and if we treat them in an uncivil manner we can easily provoke their resentment. This is what Secretary Windom and his associates appear already to have done, and in order to please three or four influential silver miners, a line of action has been taken which is likely in the next year or two to lead to the loss by American merchants of hundreds of thousands, and perhaps millions, of dollars' worth of Mexican trade. Of course, all this is the reverse of diplomatic skill. In fact, it is nothing more than blind stupidity."—Mexican Financier.

The idea of incorporating into the runners of the hose race as many ball players as possible, provided they are members of the fire companies, is, beyond question, correct and should by all means be done. If a member is a good runner he should not be barred from the hose team because he is one of the ball players, and vice versa. If we can send two teams to Phenix for, say \$500, where is the necessity for expending an additional \$300 for the same purpose? It is a fact that some of the ball players are as efficient in a hose race as any other members of the department, and to bar them for this cause is an injustice to our citizens as well as to themselves.

Col. Hafford and Ben Whiston will leave this morning for a three day's hunting trip to Pantano Cienega. They go loaded for ducks and other feathered game and their return will undoubtedly have a very depressing effect on our local game market. The Colonel is well along in years but it seems that he has discovered the elixir of life and can give Brown-Sequard several points and beat him at his own game.

## FURTHER PARTICULARS.

## One of the Soldiers Dead and the Other in a Critical Condition.

From Sergeant Thompson, who arrived from Fort Huachuca yesterday, we learn that Private Pontz, one of the soldiers shot by the Mexican at Mesal Springs a few days ago, died a few hours after his arrival at the fort. He was shot in the neck, the wound paralyzing him. He leaves a brother and sister in New York. The other soldier was shot through the pelvis and is in a critical condition. Post-Surgeon Patzky is attending the wounded man. The particulars of the shooting are substantially as follows:

A squad of soldiers had been detailed for a scouting expedition and were camped at Mesal Springs, about eighteen miles from the fort. During the afternoon the Mexican visited the camp and became acquainted with the soldiers, taking part in the target practice, at which he proved a good shot. No ill feeling was manifested by any one and the Mexican finally made it known that he had considerable mesal that he desired to dispose of. An unfavorable answer was given and the Mexican left the camp saying that he had been insulted. He soon returned and after a few words shot Pontz and started to run. He was immediately pursued and turned and shot another soldier with the result above stated. At this one of the soldiers shot the Mexican through the heart. He was left where he fell with two soldiers to guard the body and the detachment returned to the fort, from where a telegram was sent to this city. The Mexican had a fine horse and was well armed. He possessed an unusual degree of intelligence and was evidently the leader of a band of smugglers, although none of his companions were with him at the time.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois, last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 380 bottles of Chamberlain's Colic, Cholera and Diarrhea Remedy during this epidemic and says they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 50 cent bottles for sale by H. J. Peto.

Parents should be careful that their children do not contract colds during the fall or early winter months. Such colds weaken the lungs and air passages, making the child much more likely to contract other colds during the winter. It is this succession of colds that causes catarrh and bronchitis or paves the way for consumption. Should a cold be contracted, loose no time but cure it as quickly as possible. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold in a few days and leave the respiratory organs strong and healthy. For sale by H. J. Peto.
